FOREWORD

The Uniform Design and Construction Standards for Potable Water Distribution Systems, 2nd Edition supersedes the 1st edition (1995).

Special provisions and drawings will be provided, when necessary, to supplement or modify these Design and Construction Standards. Agency specific request may be included as an addendum to this standard.

The Uniform Design and Construction Standards for Potable Water Distribution Systems may be revised by issuance of a supplement to correct errors and omissions found in these Standards and to reflect advanced thinking and the changing construction industry technology. Each supplement will supersede any previous supplement by inclusion of all pertinent portions.

To implement this end, a Specifications Committee, including a representative from each participating Agency, has been organized to continually study and recommend changes to these Standards. Interested parties may address suggested changes and questions to the Committee for Design and Construction Standards for Water Distribution Systems, c/o any participating Agency listed at the beginning of the publication.

The following participating agencies of Clark County, Nevada area have adopted these specifications by Resolution of their staff and/or governing bodies as follows:

LAS VEGAS VALLEY WATER DISTRICT

Adopted by Deputy General Manager, Engineering/ Operations . . .

June 01, 2003

CITY OF HENDERSON

Adopted by Resolution Pending at Publication Date

CITY OF NORTH LAS VEGAS

Adopted by Director of Public Works Pending at Publication Date

CITY OF BOULDER CITY

Adopted by Resolution Pending at Publication Date

BIG BEND WATER DISTRICT

Adopted by Resolution Pending at Publication Date
