

## **DRAWING SUBMITTAL REQUIREMENTS CONTINUED**

### **60% Submittal Requirements:**

- Detail file names and dates are to remain by detail titles to verify the Standard Detail version used.

### **100% and Final Submittal Requirements:**

- All drawing files and plan & profile match lines shall be trimmed on each sheet.
- All layers are to be turned on and thawed (Exception: "mview" to be frozen).
- All information **not** pertinent to the final design must be deleted from the drawings and purged to smallest possible size.
- Detail file names and dates are to be removed from detail titles.

**Any LVVWD AutoCAD Standards revisions or updates made prior to the 100% Submittal will be required to be incorporated into the contract drawings prior to the acceptance of the Final Submittal.**

### **Revisions or Addendums:**

- All changes are to be clouded in AutoCAD (provide AutoCAD drawing files with all changes).
- The "Original was stamped by" note as shown in the standards is to be placed near the original stamp location.
- Numbered revision triangles will be placed within the clouded areas and in the drawing titleblock revision area.
- Detailed description of the changes shall also be provided in the revision area of the titleblock.
